VISION STATEMENT

- The Shadyside Local School District envisions a safe, modern educational environment for all students to build upon a foundation of cooperation, collegiality, and community involvement. The educational community will reflect an atmosphere of mutual respect and academic excellence.
- Our students will possess problem-solving, critical-thinking, and communication skills with the versatility to adapt to a constantly changing world. As such, they will become productive, responsible citizens of the 21st century.

MISSION STATEMENT

- The mission of Shadyside Local Schools is to ensure that students acquire skills to continue as life long learners and productive citizens.
- The mission of Shadyside High School is to create productive citizens by providing a safe and positive learning environment.

Lockers

Lockers will be assigned during the summer. Also, any new student who enters Shadyside High School will be assigned a locker by the Guidance Department. Students are responsible for all contents in their lockers. **Never leave anything of value in a locker-locked or unlocked.**

Lockers are property of the Board of Education and when the situation warrants, lockers may be searched without student approval. Each student is responsible for his or her locker and must report vandalism **immediately**. **The switching of lockers is prohibited, unless approved by the office.**

ACADEMICS

Academic Honesty

- Academic Honesty is an expectation for all students. Cheating is contrary to good education practice and will not be tolerated.
- First offense, student receives a zero grade on the assignment/test and parents/guardian will be notified by phone or letter.
- Second offense in the same class results as a failure in that class for the grading period and for that assignment or test.

Grading Scale

100-90	A
89-80	B
79-70	C
69-60	D
59	F

Final Grading:

The student's final grade for a class will be a result of 9 weeks grades and semester exams. For a full year course, 9 weeks grades count 20% for each 9 weeks and the 2 exams count 10% each. (For a semester course, 9 weeks grades will count 40% each and the exam will be 20%.)

Keep in mind that the 1st semester grades for seniors will be averaged and will be their last class ranking for determining class ranks (top 10, valedictorian, etc.).

Class Ranking Starting with the Class of 2015

Class ranking will be based solely on a student's GPA. The GPA will be calculated on a 4.0 scale with students being able to earn "add-on" points for taking certain courses. These courses are: Honors English 9,10,11,12, Honors Government, Advanced Biology, Calculus, Anatomy/Physiology, Honors Physics, Advanced Chemistry, Engineering/Scientific Design. The add-ons are: .04-A, .035-B+, .03-B, .025C+, .02-C, .015-D+, .01-D. (This equals a multiple of .01 of the point value of the corresponding grade.)

Grade Point Scale

Regular Courses:

A=4.00
B+=3.50
B=3.00
C+=2.50
C=2.00
D=1.00
F=0

For Juniors and Seniors

Weighted Courses:*A=5.00

B+=4.50 B=4.00 C+=3.50 C=3.00 D+=2.50 D=2.00 F=0

*Weighted Courses include:

Honors English 9,10, 11, 12

Advanced Chemistry

Honors Government

Calculus

Honors Physics

Repeating a Course

If a student repeats a course because of a failing grade, the F grade will be averaged in with the students's other grades.

If a student repeats a course in an attempt to receive a higher grade, the higher grade will be the one averaged with their other grades and the lower grade will not be counted. In addition, only 1 credit can be earned per course.

Incomplete grades

- Incomplete grades will become failures if the required work is not completed before the next grading period ends. The teacher can make an exception to this policy due to an extenuating circumstance. Incomplete grades are considered failures in regard to athletic eligibility until they are made up to passing grade.
- If an incomplete grade is recorded for the final 9 weeks and/or the final exam, no credit will be given in the course until all work is completed to the satisfaction of the teacher.

Make-up policy

A student has the same amount of days to make-up work as the time they miss, example: 2 days out, 2 days to make-up.

Shadyside High School Homework Philosophy

Homework presents an opportunity to extend the teaching/learning time beyond that set by the length of a class period. Homework affords the teacher an opportunity to determine if students have a grasp of the subject being taught, it affords the student an opportunity to test his or her understanding of the material taught.

Completed homework, when examined and graded, gives each participant in the instructional process--student, teacher, and parent--a measure of the results of the process.

Homework should be viewed as a part of the total educational process. While homework places a time/work burden on teacher and student alike, it is a vital part of the traditional classroom learning methods.

Students' progress reports can be sent anytime between grading periods to parents of students who are not meeting the standards set by the teacher and/or school. An acknowledgment by phone is appreciated.

- Progress reports will be sent home in the middle of each grading period.

Honor Roll

- To appear on the Honor Roll, a student must have an accumulative average of at least 3.0 - 3.9. Students with 4.0 will be on the principal's list. A failing grade in any course eliminates a student from the Honor Roll Status.

Drop a Class/ Add a Class

- Permission to drop a class is difficult to obtain. When you select a course, you are expected to complete it. Dropping a class is done only through the mutual consent of the parent, teacher, and the approval of the guidance counselor.
- Any withdrawal after the sixth (6th) week will result in a failing grade recorded for that class and will appear on your record.
- No withdrawals will be permitted unless a student's schedule can be rearranged to show him carrying six (6) subjects. This requires guidance counselor approval. A lab course is considered a study hall.
- Adding a class must be done through mutual consent of the Principal, Guidance Counselor, and the subject teacher. A designated time at the beginning of a semester is established as last day to add a class (usually no later than day 6 of new semester)

Changing Courses

- Changing a course in a student's schedule should be done prior to the start of the new school year. Changes will be made only at the approval of the counselor and building principal. Parents need to be aware of changes in their child's schedule and parental approval through phone call or written note is also suggested.
- Those junior high students starting in Algebra 1 as eighth graders are required to stay in that course for at least the first nine weeks of school. Students in pre-algebra 7 are also required to remain for at least nine weeks before any changes will be made. Changes before the start of the school year provides smoother transition for both student and teacher. Parental calls are welcome by calling the guidance office at 740-671-6130 for any information regarding course offerings.

Minimum Graduation Requirements

Lab science courses are: Chemistry I, Advanced Chemistry (weighted), Honors Physics (weighted), and Advanced Biology (weighted).

Credit Flexibility-As part of the Ohio Dept. of Education, public schools have to establish a credit flexibility plan. Students may have received instruction or are involved in instruction that is not a part of Shadyside High School. Depending on the type of instruction, credit may be obtained.

Physical Education Waiver Policy

Physical Education waiver students must meet the two season requirement of athletics, cheerleading or marching band by the end of their sophomore year or they will be placed in Physical Education their Junior year.

Students understand that no grade will be given, only credit will appear on transcripts. They must schedule another half credit class in those two years.

Students must complete the season for it to count. Any student quitting during the season will receive no credit for that season. If a student becomes academically ineligible and unable to complete the season, it will not count.

Textbooks

- Textbooks are furnished by the school and are issued at the beginning of the year. Students who lose, damage, or misuse a book will be charged according to the following schedule.

New book	100% of price
1 year old book	90% of price
2 year old book	75% of price

ATTENDANCE

The educational program offered by this District is predicated upon the presence of the student and requires continuity of instructions and classroom participation. Attendance shall be required of students enrolled in the school during the days and hours that the school is in session. Daily attendance of students is a matter of great importance as shown by the fact that prospective employers always check attendance.

In accordance with state law, the Superintendent, or his designee, shall require from the parent of each student, or from an adult student who has been absent from school or from class for any reason, a written statement of the cause for such absence.

The School Board considers the following factors as reasonable excuses for time missed at school and will be considered excused absences:

- A. Personal illness or medical appointment with an accompanying physician's statement.
- B. Illness in the immediate family that requires the student to stay home as determined by the Principal
- C. Quarantine of the home
- D. Death in the immediate family (maximum 3 days)
- E. Religious observation in which a student is personally involved.
- F. Emergency situation in which a parent can work out no other solution as determined by the Principal or for such good cause as may be acceptable to the Principal
- G. Court appearance for child

Upon return to school the student must provide a written excuse to school administration. It will be the responsibility of the student to receive make-up work from the teacher and to have such returned by the specified date as set by the school.

When a student is absent, the parent or guardian should call the school between 7-9 a.m. to inform school officials that their child will not attend school that day. As required by law, if the office does not receive a phone call by the completion of attendance a school representative will attempt to contact the home.

Appointments -Doctors, Dentist, etc...

Appointments should be made outside school time. If this is not possible the student should bring a note from home requesting early dismissal. The student will receive a slip from the office, indicating the time the student will be released. Students must sign out in the main office upon leaving. The Principal may call the doctor's office to verify the appointment. When students return to school they need to provide a slip from their doctor, dentist, therapist, etc. verifying the appointment date and time. If they return to school the same day they should sign back in.

Vacations

We encourage vacations involving students to be taken during school vacation time. Students who go on vacation during school time are given an unexcused absence. If a parent who wishes his/her child to vacation during the school time presents a written request to the Principal prior to going and each of his/her teachers sign the request, then the child may make up any missed work at the convenience of the teacher and within the guidelines for make up work.

College Visits

Seniors are permitted two approved visits to colleges. Application forms for college visits must be approved three days in advance by the Guidance Office and Principal. Juniors may be permitted one approved visit to a college. Same rules apply as for seniors. Only under extenuating circumstances will college visits be permitted during the month of May.

Sanctions

Other than specified above as excused absences, all other absences shall be considered unexcused absences. When a student accumulates the following number of absences, the following action will be taken by the School District:

Three days unexcused absence-student and parent notified

Five days unexcused absence-student, parent and truant officer notified

Ten days unexcused absence -student, parent, truant officer notified and student and parent shall be required to attend an intervention and truancy prevention strategy as adopted by the School Board

Twelve days unexcused absence or five or more consecutive days or seven or more in one month-the school may file habitual truancy charges through the Prosecutor's Office

Fifteen days unexcused absence, or seven or more consecutive days, or ten or more in one month-the school may file chronic truancy charges through the Prosecutor's Office
(a month is defined as four consecutive weeks)

18 year old students after 12 days unexcused will receive a zero on all graded assignments missed.

It is the policy of this School District that a parent may be charged with failing to send their child to school, contributing to the delinquency or unruliness of a minor, or other criminal charges relating to their child's attendance. These actions may be taken upon referral of the School to the Belmont County Prosecuting Attorney's Office pursuant to Section 3321.19, 3321.38 or 2919.222 of the Ohio Revised Code.

A half hour absence from school will be counted as a half day absence.

Pregnant students will be given educational opportunities to pursue graduation requirements, within reason; however, all requirements must be fulfilled to teacher's satisfaction.

Medication

Whenever possible, medication should be administered at home.

1. Students are not allowed to carry prescription medication on their person at any time. These medications can be confused with illegal drugs.
2. A school staff member must dispense prescription medication. An exception to this would be for prescriptions for emergency medications (i.e. asthma inhalers or epinephrine auto-injectors) or insulin for which the student has submitted written authorization to self carry.
3. Prescription medication must be dropped off/picked up directly by the parent/guardian or a designated responsible adult. Medication **MAY NOT** be sent to school in the student's lunch box, pocket, or other means on or about his/her person. An exception to this would be prescriptions for emergency medications (i.e. asthma inhalers or epinephrine auto-injections).
4. A student in grades 7-12 may be allowed to possess and self-administer an over-the-counter medication upon the written authorization of the parent. This must be indicated on the Authorization for Non-prescription Medication Form. This medication must also be in the original container.

ACCEPTABLE USE AND INTERNET SAFETY POLICY

- Students are encouraged to use the Board's computers/network and Internet connection for educational purposes. Use of such resources is a privilege, not a right. Students must conduct themselves in a responsible, efficient, ethical, and legal manner. Unauthorized or inappropriate use, including any violation of these guidelines, may result in cancellation of the privilege, disciplinary action consistent with the Student Handbook, and/or civil or criminal liability. Prior to accessing the Internet at school, students must sign the Student Network and Internet Acceptable Use and Safety Agreement. Parent permission is required for minors.
- The Shadyside Local School District is pleased to make available to students access to interconnected computer systems within the District and to the Internet, the world-wide network that provides various means of accessing significant educational materials and opportunities.
- In order for the School District to be able to continue to make its computer network and Internet access available, all students must take responsibility for appropriate and lawful use of this access. Students must understand that one student's misuse of the network and Internet access may jeopardize the ability of all students to enjoy such access. While the School's teachers and other Staff will make reasonable efforts to supervise student use of network and Internet access, they must have student cooperation in exercising and promoting responsible use of this access.
- Below is the Acceptable Use and Internet Safety Policy ("Policy") of the School District and the Data Acquisition Site that provides Internet access to the School District. Upon reviewing, signing, and returning this Policy as the students have been directed, each student will be given the opportunity to enjoy Internet access at School and is agreeing to follow the Policy. If a student is under 18 years of age, he or she must have his or her parents or guardians read and sign the Policy. The School District cannot provide access to any student who, if 18 or older, fails to sign and submit the Policy to the School as directed or, if under 18, does not return the Policy as directed with the signatures of the student and his/her parents or guardians.
- Listed below are the provisions of your agreement regarding computer network and Internet use. If you have any questions about these provisions, you should contact the person that your School has designated as the one to whom you can direct your questions. If any user violates this Policy, the student's access will be denied, if not already provided, or withdrawn and he or she may be subject to additional disciplinary action.

Personal Responsibility

- By signing this Policy, you are agreeing not only to follow the rules in this Policy, but are agreeing to report any misuse of the network to the person designated by the School for such reporting. Misuse means any violations of this Policy or any other use that is not included in the Policy, but has the effect of harming another or his or her property.

Term of permitted use

- A student who submits to the School, as directed, a properly signed Policy and follows the Policy to which she or he has agreed will have computer network and Internet access during the course of the school year only. Students will be asked to sign a new Policy each year during which they are students in the School District before they are given an access account.

Acceptable Uses

Educational Purposes Only

- The School District is providing access to its computer networks and the Internet for *only* educational purposes. If you have any doubt about whether a contemplated activity is educational, you may consult with the person(s) designated by the School to help you decide if a use is appropriate.

Unacceptable Uses of Network

- Among the uses that are considered unacceptable and which constitute a violation of this Policy are the following:
- Uses that violate the law or encourage others to violate the law. Don't transmit offensive or harassing messages; offer for sale or use any substance the possession or use of which is prohibited by the School District's Student Discipline Policy; view, transmit or download pornographic materials or materials that encourage others to violate the law; intrude into the networks or computers of others; and download or transmit confidential, trade secret information, or copyrighted materials. Even if materials on the networks are not marked with the copyright symbol, you should assume that all materials are protected unless there is explicit permission on the materials to use them.
- Uses that cause harm to others or damage to their property. For example, don't engage in defamation (harming another's reputation by lies); employ another's password or some other user identifier that misleads message recipients into believing that someone other than you is communicating or otherwise using his/her access to the

network or the Internet; upload a worm, virus, “trojan horse,” “time bomb” or other harmful form of programming or vandalism; participate in “hacking” activities or any form of unauthorized access to other computers, networks, or information systems.

- Uses that jeopardize the security of student access and of the computer network or other networks on the Internet. For example, don’t disclose or share your password with others; don’t impersonate another user.
- Uses that are commercial transactions. Students and other users may not sell or buy anything over the Internet. You should not give others private information about you or others, including credit card numbers and social security numbers.

Netiquette

- All users must abide by rules of network etiquette, which include the following:
- Be polite. Use appropriate language. No swearing, vulgarities, suggestive, obscene, belligerent, or threatening language.
- Avoid language and uses which may be offensive to other users. Don’t use access to make, distribute, or redistribute jokes, stories, or other material which is based upon slurs or stereotypes relating to race, gender, ethnicity, nationality, religion, or sexual orientation.
- Don’t assume that a sender of e-mail is giving his or her permission for you to forward or redistribute the message to third parties or to give his/her e-mail address to third parties. This should only be done with permission or when you know that the individual would have no objection.
- Be considerate when sending attachments with e-mail (where this is permitted). Be sure that the file is not too large to be accommodated by the recipient’s system and is in a format which the recipient can open.

Internet Safety

General Warning; Individual Responsibility of Parents and Users

- All users and their parents/guardians are advised that access to the electronic network may include the potential for access to materials inappropriate for school-aged pupils. Every user must take responsibility for his or her use of the computer network and Internet and stay away from these sites. Parents of minors are the best guide to materials to shun. If a student finds that other users are visiting offensive or harmful sites, he or she should report such use to the person designated by the School.

Personal Safety

- Be safe. In using the computer network and Internet, do not reveal personal information such as your home address or telephone number. Do not use your real last name or any other information which might allow a person to locate you without first obtaining the permission of a supervising teacher. Do not arrange a face-to-face meeting with someone you “meet” on the computer network or Internet without your parent’s permission (if you are under 18). Regardless of your age, you should never agree to meet a person you have only communicated with on the Internet in a secluded place or in a private setting.

“Hacking” and Other Illegal Activities

- It is a violation of this Policy to use the School’s computer network or the Internet to gain unauthorized access to other computers or computer systems, or to attempt to gain such unauthorized access. Any use which violates state or federal law relating to copyright, trade secrets, the distribution of obscene or pornographic materials, or which violates any other applicable law or municipal ordinance, is strictly prohibited.

Confidentiality of Student Information

- Personally identifiable information concerning students may not be disclosed or used in any way on the Internet without the permission of a parent or guardian or, if the student is 18 or over, the permission of the student himself/herself. Users should never give out private or confidential information about themselves or others on the Internet, particularly credit card numbers and Social Security numbers. A supervising teacher or administrator may authorize the release of directory information, as defined by Ohio law, for internal administrative purposes or approved educational projects and activities.

Active Restriction Measures

- The School, either by itself or in combination with the Data Acquisition Site providing Internet access, will utilize filtering software or other technologies to prevent students from accessing visual depictions that are (1) obscene, (2) child pornography, or (3) harmful to minors. The School will also monitor the online activities of students, through direct observation and/or technological means, to ensure that students are not accessing such depictions or any other material which is inappropriate for minors.
- Internet filtering software or other technology-based protection systems may be disabled by a supervising teacher or school administrator, as necessary, for purposes of bona fide research or other educational projects being conducted by students age 17 and older.
- The term “harmful to minors” is defined by the Communications Act of 1934 (47 USC Section 254 [h][7]), as meaning any picture, image, graphic image file, or other visual depiction that:

- taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
- depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals;
- taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

Privacy

- Network and Internet access is provided as a tool for your education. The School District reserves the right to monitor, inspect, copy, review and store at any time and without prior notice any and all usage of the computer network and Internet access and any and all information transmitted or received in connection with such usage. All such information files shall be and remain the property of the School District and no user shall have any expectation of privacy regarding such materials.

Failure to follow policy

- The user's use of the computer network and Internet is a privilege, not a right. A user who violates this Policy, shall at a minimum, have his or her access to the computer network and Internet terminated, which the School District may refuse to reinstate for the remainder of the student's enrollment in the School District. A user violates this Policy by his or her own action or by failing to report any violations by other users that come to the attention of the user. Further, a user violates this Policy if he or she permits another to use his or her account or password to access the computer network and Internet, including any user whose access has been denied or terminated. The School District may also take other disciplinary action in such circumstances.

Warranties/Indemnification

- The School District makes no warranties of any kind, either express or implied, in connection with its provision of access to and use of its computer networks and the Internet provided under this Policy. It shall not be responsible for any claims, losses, damages or costs (including attorney's fees) of any kind suffered, directly or indirectly, by any user or his or her parent(s) or guardian(s) arising out of the user's use of its computer networks or the Internet under this Policy. By signing this Policy, users are taking full responsibility for his or her use, and the user who is 18 or older or, in the case of a user under 18, the parent(s) or guardian(s) are agreeing to indemnify and hold the School, the School District, the Data Acquisition Site that provides the computer and Internet access opportunity to the School District and all of their administrators, teachers, and staff harmless from any and all loss, costs, claims or damages resulting from the user's access to its computer network and the Internet, including but not limited to any fees or charges incurred through purchases of goods or services by the user. The user or, if the user is a minor, the user's parent(s) or guardian(s) agree to cooperate with the School in the event of the School's initiating an investigation of a user's use of his or her access to its computer network and the Internet, whether that use is on a School computer or on another computer outside the School District's network.

Updates

- Users, and if appropriate, the user's parents/guardians, may be asked from time to time to provide new or additional registration and account information or to sign a new Policy, for example, to reflect developments in the law or technology. Such information must be provided by the user (or his/her parents or guardian) or such new Policy must be signed if the user wishes to continue to receive service. If after you have provided your account information, some or all of the information changes, you must notify the person designated by the School to receive such information.

PUBLIC'S RIGHT TO KNOW

- The Board supports the right of the people to know about the programs and services of their schools and makes efforts to disseminate appropriate information. Each principal is authorized and expected to keep the school's community informed about the school's programs and activities. The release of information of Districtwide interest is to be coordinated by the Superintendent.
- Business of the Board is discussed and decisions are made at public meetings of the Board, except such matters as are properly discussed in private executive sessions.
- The official minutes of the Board, its written policies, its financial records and all other public records are open for inspection in the Treasurer's office during the hours when the administration offices are open.
- Records pertaining to individual students and other confidential materials are not released for inspection by the public or any unauthorized persons, either by the Treasurer, Superintendent, or other persons responsible for the custody of confidential files. Only that information deemed "directory information" may be released from an

individual student's file, and only after complying with the regulations prepared by the administration for the release of such information. Student records that consist of "personally identifiable information" generally are exempt from disclosure. Student directory information, however, is released unless the parents have affirmatively withdrawn their consent to release in writing.

- Any individual who wants to obtain a copy of a public record may request to have the record duplicated on paper, on the same medium on which the record is kept or on any other medium the Superintendent/designee determines that the record can reasonably be duplicated as an integral part of normal operations.
- The District may ask that the request be put in writing. However, the District must notify the requester that it is not mandatory to do so.
- The District provides an opportunity for a records requester making an ambiguous or overly broad request to revise the request by informing the requester of the manner of which records are maintained.
- If a public records request is denied, the District provides an explanation with legal authority as to the reason for the denial of the request.
- If the person seeking the copy makes a choice under this provision, the District must provide the record in accordance with that choice if available to the District. A fee may be charged for copies. The District may require the fee charged for copies be paid in advance.
- The person making a mail request pays the cost of postage and other supplies in advance. The number of mail requests sent to any one person is limited to 10 a month unless the person certifies in writing that the records, or the information in them, will not be used for commercial purposes.
- The Board's public records policy is posted in a conspicuous location in the central office and in all other District buildings and employee handbooks provided by the District.
