

KINDERGARTEN NEWS 11/28/16

Reading: We will be mastering the letter Hh and its sound. The students should be really good at beginning sounds by now. We continue to work on details and predictions in the stories that we read.

Math: Continue to practice writing numbers, 2 dimensional (flat shapes), 3 dimensional shapes, ex. cone, sphere, cylinder, and cube. Recognizing numbers to 10, we are working on 1 more and 1 fewer with numbers to 20.

Homework: Tues.: we will read a front and back sheet of sentences

Wed.: letter Hh in the Alphabet Book

Thurs.: writing Hh/math concepts.

Make sure you make words out of the flashcards every night (ex: bat cat vat rat sat, etc.) and have your child sound them out. You can also use the sight words to make sentences with the "at" words in the evenings.

The more your child reads, the better reader your child will be.

Miscellaneous: We appreciate all that you do at home to keep your little one on track at school. It takes all of us working together to master the Kindergarten concepts and skills. The comprehension part of our curriculum seems to be hard for many of the children. We can not stress how important it is that you ask questions about the stories that you read at home. Comprehension needs to be practiced at school and at home for the student to fully understand what they are reading. Keep reading at home to strengthen this skill.

Also, they love to shop at our "STORE". When we shop at the "STORE" it is excellent practice to exchange pennies for nickels, as well as count out the money they need to buy the items.

The children should be able to count by 1's to 50 now. Addition problems are also fun to do at the dinner table.

We are not having a Christmas program, our program will be in May and we will give you the date as soon as it is scheduled.

Christmas vacation starts on Wednesday, December 21st.

Students will return to school on Wednesday, January 4th.

We will be doing many holiday activities and counting down the days until Christmas.

On Wed. and Fri., please have your child wear tennis shoes to school for gym. Of course if it is snowing and it is necessary to wear boots they can bring their tennis shoes to school for gym.

Have a good week, everyone!
