

East Central Ohio Educational Service Center: Business Advisory Council Plan

Joint Statement Update February 2019

Purpose

The East Central Ohio Educational Service Center (ECOESC) Business Advisory Council will support the Member Districts, Community, Industry, and Higher education in teaching and igniting students to create better futures for themselves and their communities by providing strategic guidance in how to achieve the team's mission statement and main objectives.

"Helping Schools Help Children"

Evaluation

This purpose will be evaluated at the first meeting of each year to ensure that it is current, given the evolving nature of ECOESC and its BAC. Current trends in the local industry and economy will be evaluated and each member will have meaningful input toward the BAC Plan.

Structure

The ECOESC Business Advisory Council has met on the following dates:

August 28, 2018 at Belmont-Harrison Career Center

November 7, 2018 at ECOESC New Philadelphia Office

January 30, 2019 (postponed due to weather - in process of being rescheduled by chairperson)

Responsibilities

Business advisory councils foster cooperation among schools, businesses and the communities they serve. This work ensures that the work of educators aligns with the needs of businesses. This cooperation can make a local education system more aware of the local labor market; promote work-based experiences within businesses; and help students prepare for successful learning and employment opportunities. Business advisory councils include regional business leaders who are familiar with business and industry needs. Members partner with district leaders to plan and carry out the council's work.

The Business Advisory Council (BAC) is responsible for:

1. To advise local school districts on changes in the economy and job market and the area in which future jobs are most likely to be available;
2. To advocate for the employment skills most critical to business and industry and the development of curriculum to teach these skills;
3. To aid and support local school districts by offering suggestions for developing a working relationship among businesses, labor organizations and educators.

Additionally, Business Advisory Board members may be requested to participate in other events throughout the year. Such events include:

- Networking events open to the public
- Presentation team selection events and practice presentations

- Events requiring facilitators, mentors, judges, etc.
- Events entailed in participation on BAC committees
- Other events as scheduled

RISING MANUFACTURING SCHOLARS PROGRAM - Overview

The goal of the Rising Manufacturing Scholars Program is to identify students in the greater Tuscarawas county area and support them to move to a college environment. The incentive is paid college tuition to Kent State University with no out of pocket expenses. Tuition will be funded through Pell Grants, Kent State University Tuscarawas, and business partners. Other funding sources could include scholarships from local donors, Grants through the Governor's Office of Appalachia, and other grants, etc.

Other program expenses include a program coordinator, mentor reimbursement, and program costs.

Things we are able to leverage in Tuscarawas County are the:

College for Kids program, Tuscarawas County Dale Lauren Foland Manufacturing Camp for Kids, Project lead the Way program.

Partnerships – Scanning the community for potential team partners; making contact with potential partners and providing liaison for team members; and reviewing materials used for recruitment of supporters. Other committees may be formed to provide guidance on specific projects or initiatives.

External analysis – Assisting the team in identifying and addressing areas of opportunity, potential risks and challenges and emerging local trends advising the team on issues of strategic importance.

3. Goal / Expected Outcome:

Employ 1-2 Career Navigators for Belmont County to guide MS/HS Students in career exploration through mentoring, internships, and job shadowing
