

This is a reminder from the school nurse for parents of seventh grade and senior students. All 7th grade students are required to have a tetanus booster (Tdap) and Meningitis vaccine (also known as MCV4) before the start of the 2020/21 school. Seniors are required to have this same type of meningitis vaccine. There is a grace period which ends 14 days after the start of the school year. If you are unable to get your child vaccinated by September 15, 2020, please submit a note to the school with your child's name and your signature stating the date and time of your scheduled appointment. Vaccines are given by the Belmont County Health Department by appointment. Their number is 740 695 1202. Some local pharmacies also administer immunizations or contact your child's personal care provider.
